

Bluemont Consulting supports HANNOVER Finanz in the acquisition of a majority share of ZEEH Design Group

Munich, 10 September 2018

ZEEH DESIGN GmbH is a full-service provider in the live communication industry. The company designs, stages and realizes sophisticated company appearances for exhibitions, events, press conferences, roadshows and general meetings domestically and abroad.

HANNOVER Finanz acquires a majority share of ZEEH Design Group due to a business succession. The transaction is still under reserve of the responsible competition authority and the closing is expected to be at the beginning of October. Bluemont Consulting has exclusively conducted a commercial due diligence for HANNOVER Finanz.

For almost 40 years now, the HANNOVER Finanz Group has been a sought-after private equity partner for medium sized enterprises in all industries. The private equity company, based in Hanover and Vienna and founded in 1979, was one of the first providers of venture capital in Germany. The Group also invests in companies when a change of generation has to be secured, and in medium sized spin-offs.
